Professional Summary

Highly motivated and skilled Full-Stack Web Developer with expertise in the MERN stack. Proficient in JavaScript, Node.js, React.js, MySQL, Firebase, Bootstrap, and Tailwind CSS. Known for quickly adapting to new technologies and environments, I am committed to delivering high-quality, scalable web applications. Passionate about coding and constantly seeking to expand my knowledge and improve my skills.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs

Databases: MySQL, MongoDB, Firebase

Version Control: Git, GitHub

Tools & Platforms: Firebase, Docker, Heroku, Postman

Other: Responsive Design, Agile Methodologies, Unit Testing

Professional Experience

Full-Stack Web Developer

LPSG

1 Year – Present

Developed and maintained web applications using the MERN stack, ensuring responsive design and cross-browser compatibility.

Collaborated with a team of developers to build and deploy a scalable Ecommerce platform, reducing page load time by 30%.

Integrated MySQL and Firebase databases for real-time data storage and retrieval, improving application performance and user experience.

Implemented authentication and authorization systems using Firebase Auth and JWT.

Utilized Bootstrap and Tailwind CSS to create visually appealing and user-friendly interfaces.

Worked in an Agile environment, participating in daily stand-ups, sprint planning, and code reviews.

Assisted in developing a dynamic content management system (CMS) using Node.js and Express.js.

Collaborated with senior developers to design and implement RESTful APIs, improving data handling efficiency.

Conducted front-end development tasks using React.js and Tailwind CSS, ensuring a responsive and engaging user experience.

Debugged and optimized code, reducing application load times by 20%.

Projects

Evangadi Forum

Inspired by popular Q&A platforms, the Evangadi Forum is a web app designed for users to ask questions and share knowledge. With features such as user profiles, upvoting, commenting, and search capabilities, the platform fosters community-driven learning and interaction, making it an ideal space for discussions and problem-solving.

Developed an item exchange e-commerce website using React.js, Node.js, and MongoDB.

Integrated real-time features using Firebase, enhancing user interaction.

Implemented responsive design with Bootstrap/Tailwind CSS, ensuring compatibility across devices.

Lewach-X

Lewach-x is a cutting-edge platform designed to revolutionize online exchanges, offering a seamless and user-friendly experience for trading items, services, and ideas. With advanced features like real-time messaging, secure transactions, and personalized recommendations, Lewach-x connects users in a dynamic marketplace, empowering them to share, trade, and innovate effortlessly.

Created a full-stack web application for Evangadi Forum, Lewach-X and modern transportation system utilizing React.js and MySQL.

Deployed the application on netlify, render and github ensuring continuous integration and delivery.

Education

Bachelor of Science in Computer Science

University of Gondar , Gondar

2021 – present

Certifications

Android Mobile Application, Nata Computers

Full-stack web application development , Evangadi Tech

Additional Information

Languages: English, Amharic , A/oromic

Interests: Coding, problem solving, project manager
